

SILA STILS

"Reeno is one of our prides. The project combines excellent energy efficiency, the appealing look and functionality of every square meter. It is a comfortable and cozy house where you want to stay as long as possible, every day – on your own, with your family or in a company with your friends. These houses will last for generations."

Architect Renārs Putniņš

REENO

Coziness is genetically encoded in our mansions. It is instantly felt when you cross the doorstep, right from the first time. Reeno radiates this feeling of coziness, and you will feel it everywhere – in the spacious living room, in each of the five bedrooms, or at the backyard. It's achieved by combining the thoroughness of the masonry on the first floor, the lightness of the wooden facade on the second floor and the presence of natural light in the building throughout the day.

Like other Sila Stils projects, Reeno is created with a fully finished finish and equipped bathrooms. In short, the mansion is ready for cozy living right when you come in!
